ISY1 Antibody

Rabbit Polyclonal

Antigen Affinity Purified		Protein ID	Q9ULR0.3
Catalog No.	A304-927A-T	GeneID	57461
Lot No.	A304-927A-T-1		

APPLICATIONS	IP
SPECIES REACTIVITY	Human
AMOUNT	10 µl
CONCENTRATION	1000 µg/ml
STORAGE/SHELF LIFE	2 - 8°C / 1 year from date of receipt
PHYSICAL STATE	Liquid
BUFFER	Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09% Sodium Azide
ISOTYPE	IgG
ORIGIN	USA
PRODUCTION PROCEDURES	Antibody was affinity purified using an epitope specific to ISY1 immobilized on solid support. The epitope recognized by A304-927A-T maps to a region between residue 200 to 250 of human Pre-mRNA-splicing factor ISY1 homolog using the numbering given in entry Q9ULR0.3 (GeneID 57461). Antibody concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG.
APPLICATIONS	Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.

Western Blot	Not recommended. A304-927A has not performed satisfactorily when used for WB of ISY1 in crude preparations (e.g. whole cell lysate). This antibody can be used for WB of enriched (e.g. immunoprecipitated) sources of ISY1.
Immunoprecipitation	2 - 10 µg/mg lysate
